ITIL - Technology Business Management (TBM) Fundamentals Certification Training for the Federal Government

Code: 1242
Length: 3 days
URL: View Online

This APMG Certification course covers The Office of Management and Budget (OMB) mandate requiring the adoption of Technology Business Management (TBM) across the Federal Government. With this effort, OMB intends to align IT costs with the Federal budget process, while reducing the burden for agencies to comply with IT Capital Planning and Investment Control (CPIC) processes. Successful implementation requires leveraging authoritative data with automation and moving away from the manual, time-consuming self-reporting that currently burdens Federal agencies. Fiscal Year 2022 is the target date for full TBM implementation and leveraging TBM data for the Federal CPIC process.

Skills Gained

- Describe the legislative oversight process that brought us to TBM Implementation
- Be prepared to explain the benefits and fundamentals of TBM at your agency
- Develop a TBM implementation roadmap and apply it within your organization
- Integrate and leverage the advantages of Technology Business Management into Federal IT
- Program Management and Federal budgeting
- Integrate TBM concepts with practical risk management
- Leverage TBM to benefit your Agency’s federal IT program management and program oversight with proper metrics and KPIs

Prerequisites

Schedule (as of 3)

Date	Location	
Apr 17, 2024 – Apr 19, 2024	Virtual	Enroll
Jul 31, 2024 – Aug 2, 2024	Virtual	Enroll
