Today, every credible training provider offers live virtual training in addition to the in-person classroom experience. But *delivering* the content is only half the battle. How can you be sure the virtual delivery will be engaging in the moment and that you'll remember it once the course is over?

With ExitCertified's exclusive Individual Multimedia Video Presence (iMVP), the question is answered by the platform itself. iMVP gives you the assurance of a high-definition virtual experience that is specifically designed to maximize learner engagement and knowledge retention.

iMVP is designed to help learners forget about the technology and focus on the course. Each student receives a high-definition webcam and audio headset to ensure the best possible experience. The result? **In the past year, iMVP students have logged over 277,500 hours on the platform**. Plus, the students who use these video tools have reported outstanding satisfaction with their training — giving iMVP an average rating of 4.79 out of 5.*
