Generative AI and Large Language Model Training for Developers

**FOUNDATIONAL**
- Introduction to Python 3 Programming (Practical Programming for Beginners) (3-days)
- Comprehensive Data Science with Python (5-days)
- Fundamentals of Deep Learning (1-day)

**APPLICATION SPECIFIC**
- Building Conversational AI Applications (1-day)
- Building Transformer-Based Natural Language Processing Applications (1-day)
- Generative AI with Diffusion Models (1-day)

**USING LLMs**
- Efficient Large Language Model (LLM) Customization (1-day)
- Data Parallelism: How to Train Deep Learning Models on Multiple GPUs (1-day)
- Model Parallelism: Building and Deploying Large Neural Networks (1-day)
- Rapid Application Development Using Large Language Models (1-day)
