

# Google Cloud Training

Create better business outcomes with Google Cloud Platform training and certification. Let ExitCertified show you how.

ExitCertified is Google Cloud's official training partner for the North American region, providing GCP training courses. We can guide you through every step of your journey toward Google Cloud certification with a learning path that's relevant to you and your organization so you can get more out of the cloud. Our GCP courses focus on delivering core training targeted at positions like Cloud Engineer, Cloud Architect, Cloud Network Engineer, Cloud Security Specialist, Cloud Developer and Cloud Data Engineer.

## Increase your business outcomes faster

As more and more corporations move all or part of their IT infrastructure into the cloud, organizations are acknowledging the importance of IT professionals who are certified in open cloud platforms like GCP. Earning credentials from Google Cloud Platform validates you have the knowledge to service and support GCP.

Whether you are just starting out, building on existing IT skills or sharpening your cloud knowledge, Google Cloud Platform training can teach you how to best leverage all of the GCP features so you can create better business outcomes faster, accelerating your career.

## Learn Google Cloud your way

With ExitCertified, you get access to GCP courseware in the way that best suits your needs—whether it's through in-person courses, virtual classroom or a private session at your location. Learn from award-winning instructors and acquire the skills to benefit your organization and your career in a way that fits your learning style. The path to GCP certification starts when you earn Associate-level credentials by building foundational skills and progress to Professional role-based certifications.
