

# ExitCertified Kubernetes Training

Join ExitCertified on a journey to become a Linux Foundation Certified Kubernetes expert.

## 1. Attend the instructor led K8S admin course, which includes access to supplemental exam prep tools

In addition to the course coverage, learn tips, tricks and best practices on how to prepare for the exam.

## 2. Practice with KILLER.SH and play in our K8S SANDBOX

Learn how to access and utilize killer.sh and the Kubernetes sandbox.

## 3. Collaborate with your classmates & trainer for moral support and exam prep questions!

Keep the conversation alive on Slack as you inch closer to your exam date. With virtual high fives and a supportive community, we'll celebrate your success.

**45** Days Later

## 4. Attend your 3 hour exam prep session and pick a date for your first exam attempt

Our trainer will guide you through the exam signup process, and together, we'll select a date for your attempt.

## 5. Practice some more in our K8S SANDBOX and with KILLER.SH

We're here to support your practice until you're ready to ace the test.

## 6. Take your test and pass and celebrate

If you take your test and fail, don't give up! You can use the voucher for a second attempt.

With our uniquely designed CKA-focused Kubernetes administration program, you can enhance your expertise under the guidance of our seasoned trainers.

Once registered, you're not just signing up for a course but joining an interactive learning community. ExitCertified provides a plethora of resources designed to help you master your skills and ace the exam.
