

Certified ForgeRock Training

In today's technology landscape, having confidence in what you're learning is paramount to your success. As the largest ForgeRock training partner in North America, we offer a full curriculum of certified ForgeRock training—delivered by expert education consultants and certified instructors.

Training options

With ExitCertified, you get access to ForgeRock training delivered how and when you need it:

In person	Instructor-led virtual	Private
Our physical delivery presence spans across more than 40 classrooms in North America	Train from anywhere with our iMVP (Individual Multimedia Video Presence) platform	Get a training program customized for your organization's needs, built with a combination of lecture, labs and hands-on exercises

iMVP® - premium virtual training

Get an in-class experience, no matter where you are.

With iMVP, you can attend a class from your home or office. Experience the course through lab environments, slides, whiteboard and/or lectures. iMVP also has two-way voice and video, putting you face to face with the instructor and other students so you can hear and ask questions as if you were sitting in the same room. We even send you a headset and webcam so you'll have everything you need.

Visit exitcertified.com/imvp to learn why more than 10,000 students from 67 countries have chosen iMVP training over traditional classroom or virtual training.

View all ForgeRock training opportunities at exitcertified.com/training/forgerock.
