

Organizational Training: Your New Strategic Advantage

Build resilient skills for long-term success

Modern enterprises can't survive with yesterday's skills — and even today's could be irrelevant tomorrow. The demands of modern business mean that every organization needs skills that are sharp, adaptive and in a state of constant improvement. Today, your strategic goals depend on a culture of nonstop learning. ExitCertified is ready to help you make it happen.

Choose award-winning training from a Fortune 100 provider

You have plenty of choice when it comes to IT training. But if flexible skills are part of your long-term strategy for success, you'll want a trainer with proven credibility. ExitCertified has been delivering vendor-approved instruction since 2001, and we've trained more than 125,000 students at 2,500 companies across North America. Our track record of success is part of the reason our parent company, [Tech Data](#), has been listed for 11 consecutive years among Fortune's "World's Most Admired Companies."

Access one source for 9,500+ vendor-approved courses

With over 9,500 courses from more than two dozen leading vendors, ExitCertified can be the single source for all your IT training needs. Our instructors are vendor-certified professionals who are constantly reviewing and upgrading their own skills to stay proficient.

Maximize your service and value

High-quality training comes at a cost, but ExitCertified helps you get the greatest possible value from your budget and ensures no training dollar goes unused. Our exclusive [Flex Account](#) provides you with a dedicated account manager, centralized billing through one invoice and a dynamic [Customer Enrollment Portal](#), where you can offer your employees a list of preapproved courses that align precisely with your organization's strategic goals. Plus, you'll benefit from automatic discounts. The ExitCertified Flex Account is the easy way to simplify administration and monitor the impact of your organization's investment in training.

Customize training to meet your needs

Today's organizations want to break down silos and get their resources working in deeply collaborative teams. If that's one of your priorities, consider [private group training](#) from ExitCertified. Wherever you are in North America, we come to you with course content and hands-on labs that are tailored to the exact needs of your business. Private training is the smart way to reinforce and improve your team's motivation and real-world performance.

Send training wherever it's needed across the globe

If your workforce is located all over the world, ExitCertified can still help you bring quality training opportunities to every employee. We've invested in technology that delivers a high-definition experience wherever your resources happen to be. Our robust, proprietary [iMVP®](#) platform allows your teams full participation in our live, instructor-led classrooms, giving them an experience as immersive and engaging as an in-person classroom.

Count on superior customer service

With many providers, training is just a matter of clicking through standard lesson after lesson. That's not the case with ExitCertified. Once you partner with us, a dedicated program manager assesses your organization's skills to identify any knowledge gaps.

From there, we'll customize learning pathways to support your strategic goals. With ExitCertified, you'll never have to settle for off-the-shelf solutions.

Choose courses and certifications from the world's top vendors
