

WUS581 - Tech. Details of SAP CRM Web UI

| | |
|----------------|-----------------------------|
| Code: | WUS581-v095 |
| Length: | 5 days |
| URL: | View Online |

Skills Gained

- Reinforce the web UI customizing knowledge obtained in prior attendance of CR580 including new EHP one features.
- Understand the technical architecture of the CRM Web UI to the detailed level necessary to implement customer specific code.
- Implement customer specific enhancements

Who Can Benefit

- This course targets code developers primarily, but would also be interesting for Customers, SAP consultants and project team members who are responsible for the requirements definition and specifications of customizing the SAP CRM WebClient User Interface. If you are not an ABAP developer some concepts and exercise might best be skipped, and instead focus on the big picture of how hard it is or is not to program specific custom improvements.

Prerequisites

- Essential: - CR580 SAP CRM User Interface - Fundamental knowledge of SAP technology - Prior ABAP development experience
