

# Red Hat Gluster Storage Administration

---

<b>Code:</b>	RH236
<b>Length:</b>	3 days
<b>URL:</b>	<a href="#">View Online</a>

---

This course is for senior system and storage administrators who are interested in deploying scalable, highly available storage on off-the-shelf hardware and in cloud environments. This course can help you prepare for the Red Hat Certificate of Expertise in Hybrid Cloud Storage Exam (EX236).

## Skills Gained

- Install and configure Red Hat Storage Server
- Create and manage different volume types
- Learn about IP failover for NFS and CIFS using CTDB
- Explore geo-replication
- Practice unified file and object storage using Swift
- Learn about snapshots
- Learn about the Hadoop plugin

## Who Can Benefit

- Linux system administrators and storage administrators interested in, or responsible for, maintaining large storage clusters using Red Hat Storage
- Red Hat Certified System Administrator (RHCSA) certification or an equivalent level of knowledge is highly recommended

## Prerequisites

- Red Hat Certified System Administrator (RHCSA) certification or an equivalent level of knowledge is highly recommended
- For candidates who have not earned their RHCSA, confirmation of the needed skills can be obtained by passing the online skills assessment

## Course Details

### Introduction to Red Hat Storage

## Introduction to Red Hat Storage

- Understand Red Hat Storage server features and terminology

## Install Red Hat Gluster Storage

- Install Red Hat Gluster Storage.

## Configure Red Hat Gluster Storage

- Build and configure a Red Hat Gluster Storage volume.

## Basic configuration Create Volumesurvation

- Create different volume types.

## Configure Clients

- Access data on Red Hat GLuster storage volumes with various clients.

## Configure ACLs and Quotas

- Implement POSIX ACLs and quotas.

## Extend Volumes

- Grow storage volumes online.

## Configure IP Failover

- Configure IP failover.

## Configure Georeplication

- Configure georeplication for disaster recovery.

## Troubleshooting

- Perform basic troubleshooting tasks.

## Manage Snapshots

- Manage volume snapshots.

## Install Red Hat Gluster Storage Console

- Install Red Hat Gluster Storage Console.

## Manage Tiering

- Manage storage tiering for a volume.

## Monitor Red Hat Gluster Storage

- Monitor Red Hat Gluster Storage performance.

## Configure Network Encryption

- Configure Network Encryption for Red Hat Gluster Storage.

## Comprehensive review

- Practice and demonstrate knowledge and skills learned in Red Hat Gluster Storage Administration.
