IBM - CICS V5 CICSPlex System Manager Administration

Code: WM855G
Length: 4 days
URL: View Online

An updated version of this course is available. For more information, click CICS V5.3 CICSPlex System Manager Administration (WM856G).

This advanced-level course teaches you how to install, configure, and use CICS TS System Manager components and functions.

Skills Gained

- Install CICSPlex System Manager
- Describe and use the web user interface (WUI) provided by CICSPlex System Manager
- Configure and define CICSPlexes and associated CMAS environments by using the WUI
- Define and use the CICS Explorer configured with the CMCI connected to a CICSPlex
- Define CICS systems to CICSPlex System Manager by using the WUI and CMCI
- Manage the operations of a CICSPlex of CICS systems by using the WUI and CMCI
- Create definition records to be used as directives by CICSPlex System Manager applications, such as Workload Manager, real-time analysis, and Monitor Services
- Use CICSPlex System Manager (CPSM) commands to view and dynamically manage the data that CICSPlex System Manager applications use
- Use the BAS to create and manage CICS resources through application scopes
- Use the WUI editor facilities to define WUI views, menus, users, and user groups, and to edit favorites
- Describe the CPSM API and BATCHREP
- Describe and implement the CICSPlex SM security facilities
- Describe how to use the CICS Explorer to deploy a CICS platform and application to the cloud

Who Can Benefit

This advanced course is designed for CICS system designers, system programmers, and operations staff members who are responsible for planning, installing, operating, or managing a CICSPlex by using CICSPlex SM.
Prerequisites

You should understand or have previous experience with:

- Control facilities within CICS TS
- CICS TS Intersystem facilities
- CICSPlex System Manager Infrastructure functions, as presented in course CICS V5 CICSPlex System Manager Introduction (WM845G)

Course Details

Course Outline

- Course Introduction
- CICSPlex System Manager installation
  - Exercise: CICSPlex SM installation procedure
- CICSPlex SM configuration, WUI implementation, and CICS Explorer
  - Exercise: CICSPlex SM configuration, WUI implementation, and CICS Explorer
- CICSPlex System Manager topology and operations services
  - Exercise: CICSPlex SM topology and operations
- CICSPlex SM WUI customization
  - Exercise: CICSPlex SM WUI customization
- CICSPlex System Manager Workload Manager
  - Exercise: CICSPlex SM WLM definitions
- CICSPlex System Manager RTA and monitoring
  - Exercise: CICSPlex SM RTA and monitoring definitions
- Business Application Services (BAS)
  - Exercise: CICSPlex SM BAS definitions
- CICSPlex SM miscellaneous topics
  - Exercise: CICSpex SM cloud enablement with platforms
- Course Summary
