

Red Hat - Certificate of Expertise in Platform-as-a-Service Exam IES

Code: EX280K
URL: [View Online](#)

Prove your skills to develop, host, and scale applications in a cloud environment. The Red Hat® Certificate of Expertise in Platform-as-a-Service (EX280K) Individual Exam Session tests your knowledge, skills, and ability to create, configure, and manage a cloud application platform using OpenShift Enterprise by Red Hat. This exam is performance-based, meaning that candidates must perform tasks on a live system, rather than answering questions about how one might perform those tasks. Certification: Red Hat Certificate of Expertise in Platform-as-a-Service This version of the exam is an Individual Exam Session (IES). Individual Exam Sessions are available through remotely proctored personal testing stations at select training locations. Individual Exam Sessions offer the same Red Hat exams available in a classroom setting, with the same hands-on experience, providing a convenient, secure option for Red Hat certification testing. The testing stations are simple to use, so you'll be able to relax and concentrate on your exam.
