

HDS - Hitachi Adaptable Modular Storage 2000 Family Architecture and Operations

Code: HDS-TSI2195
Length: 0 days
URL: [View Online](#)

This 5 day instructor-led course provides details on architecture, operations and storage provisioning features available on the Hitachi Adaptable Modular Storage 2000 family (models 2100, 2300, and 2500). The course presents step-by-step procedures on how to configure RAID groups and create LUNs. Learners will also learn how to present storage to servers and use Hitachi Dynamic Link Manager for path management. In addition, the course provides details on advanced storage provisioning features including Hitachi Dynamic Provisioning, Hitachi Cache Residency Manager and Cache Partitioning. Learners will also learn how to use CLI for storage provisioning.
