

HDS - Data Protection with Hitachi Application Protector

Code: HDS-TSI2228
Length: 0 days
URL: [View Online](#)

This 1 day course will provide learners with the knowledge and skills required to successfully use Hitachi Application Protector (HAPRO) in an enterprise/modular environment. Participants will receive an overview of Application Protector features and functionality, and will learn how to use the installation checklist and setup wizard. Microsoft Management Console (MMC) will also be covered, for use in managing application snapshots. The course will include pre-recorded demonstrations.
