---

This JD Edwards EnterpriseOne System Administration Rel 9.2 training teaches how to configure and manage the Solution Explorer, and describes security within the JD Edwards EnterpriseOne.

## Learn To:

- Configure and manage Solution Explorer.
- Describe system administration troubleshooting.
- Describe security within JD Edwards EnterpriseOne.
- Describe User Defined Objects.
- Manage EnterpriseOne Pages.
- Administer the software lifecycle.
- Create and manage Hover Forms and Auto Suggest Instances.

## Benefits to You

Upon completion of this course, you'll be able to confidently perform routine system maintenance duties and comfortably navigate various logging mechanisms. You'll also have the skills to solve many common system and application issues for EnterpriseOne 9.2

## Skills Gained

- Describe Menus/Views and Versions
- Describe JD Edwards EnterpriseOne Security Concepts
- Security Overview
- Managing Objects
- Technical Overview
- Administering Data Tools and Customizations
- Administering Batch Jobs
- Administering Media Objects and Flat File Encoding
- Describing Software Updates and Tools Releases
- Troubleshooting Overview
- Using Log and Configuration Files for Troubleshooting
- Troubleshooting JD Edwards EnterpriseOne components

- Performing Web Troubleshooting
- Using OMW for Troubleshooting
- Using applications for Troubleshooting
- Describing User Defined Objects

## **Course Details**

### **Technology Overview**

- Describing CNC Terminology
- Describing CNC Architecture
- JD Edwards EnterpriseOne Metadata
- Describing the Development Cycle
- Describing Web Architecture
- Business Services with Fusion Middleware
- Describing Server Manager
- Describing How to Access JD Edwards Documentation

### **Describing Menus, Views and Versions**

- Creating User-based or Custom Menus/Views
- Using Versions

### **Security Overview**

- Describing JD Edwards EnterpriseOne Security Components
- Describing JD Edwards EnterpriseOne Security Architecture

### **Describing JD Edwards EnterpriseOne Security Concepts**

- Defining Users, Roles, and System IDs
- Defining the Implementation of User Accounts and Roles
- Discussing Environments
- Describing Solution Explorer Security
- Managing Fast Path

### **JDENet**

- Analyzing JDENET Processes
- Analyzing Database Structures
- Starting and Stopping Services on Web Logic Server
- Starting and Stopping Services on WAS
- Describing Kernel Recycling

### **Managing Objects**

- Describing Object Management Workbench
- Describing Object Management Configuration

- Evaluating the Data Browser
- Describing Batch Promotion Utility
- Using Interactive Versions
- Describing Package Build and Deployment

## **Administering Data Tools and Customization**

- Describing UDCs
- Describing Data Dictionary
- Describing Vocabulary Overrides
- Describing User Overrides

## **Administering Batch Jobs**

- Defining Printers
- Setting Up Batch Versions
- Describing the Work With Servers Application
- Using the Scheduler Application
- Creating and Submitting Reports in BI Publisher
- One View Reporting Foundation

## **Administering Media Objects and Flat File Encoding**

- Describing Media Objects
- Setting Up Media Objects and Imaging
- Understanding Flat File Encoding

## **Managing User Defined Objects**

- Describing User Defined Objects
- Managing Security for User Defined Objects

## **Describing Software Updates and Tools Releases**

- Describing Software Updates and Tools Releases
- Applying Software Updates and Tools Releases

## **Enabling EnterpriseOne Pages**

- Describing EnterpriseOne Pages
- Activating EnterpriseOne Pages

## **Creating and Enabling Auto Suggest**

- Understanding Auto Suggest
- Enabling Auto Suggest
- Creating Auto Suggest Business Views

## **Setting Up Hover Forms**

- Understanding Hover Forms
- Associating Hover Forms with Data Items
- Enabling or Disabling Hover Forms

## **Troubleshooting Overview**

- Describing General Troubleshooting Principles
- Describing JD Edwards EnterpriseOne Components

## **Troubleshooting JD Edwards EnterpriseOne Components**

- Appraising Troubleshooting for Data Access Problems
- Troubleshooting for JD Edwards EnterpriseOne CNC Problems
- Troubleshooting for Interactive and Batch Application Problems
- Troubleshooting for Server Communication Problems

## **Performing Web Troubleshooting**

- Describing Web Architecture
- Defining Web Server Logs for Troubleshooting
- Evaluating Common JD Edwards HTML Web Server Post Install Issues

## **Using Applications to Troubleshoot**

- Describing JD Edwards Support Services and Tools
- Setting Up Application Failure Recovery

## **Final Course Activity**

- Appraising Troubleshooting Scenarios

## **Course Review**

- Using Troubleshooting Techniques with JD Edwards EnterpriseOne
- Using JD Edwards EnterpriseOne Tools for Troubleshooting the System
- Configuring and Managing Solution Explorer
- Administering the JD Edwards EnterpriseOne Server
- Configuring and Managing Security for JD Edwards EnterpriseOne
- Administering the Software Life-Cycle

## **Final Course Activity**

- Appraising Troubleshooting Scenarios

## **Course Review**

- Using Troubleshooting Techniques with JD Edwards EnterpriseOne
- Using JD Edwards EnterpriseOne Tools for Troubleshooting the System
- Configuring and Managing Solution Explorer
- Administering the JD Edwards EnterpriseOne Server

- Configuring and Managing Security for JD Edwards EnterpriseOne
- Administering the Software Life-Cycle
