SASAA 2.1 - Implementing Advanced Cisco ASA Security v2.1 (SASAA)

Code: SASAA-2.1-SUN
Length: 5 days
URL: View Online

The goal of the course is to be able to implement the key features of the Cisco ASA, including Cisco ASA FirePOWER Services, ASA Cloud Web Security, ASA Identity Firewall, ASA Clustering, and the Virtual ASA (ASAv).

Skills Gained

This course is intended for network engineers supporting Cisco ASA 9.x implementations.

Who Can Benefit

It is recommended that prior to enrollment, students have successfully completed SASAC v1.0, or have equivalent knowledge of the Cisco ASA.

Prerequisites

The Implementing Advanced Cisco ASA Security (SASAA) v2.1 training course will provide you with knowledge of advanced features of Cisco ASA security products and enables you to implement the key features of ASA including FirePOWER services, ASA Identity Firewall, ASA Cloud Web Security, ASA Clustering and virtual ASA (ASAv). This is an ideal Cisco security certification course to take if you want to further your knowledge on Cisco security matters or develop new skills for career advancement. This Cisco ASA training includes learning about the Cisco ASA product family, Identity Firewall, FirePOWER services, and more.
