

CompTIA Network+ Certification Prep Course (Net+)

Code:	3291
Length:	5 days
URL:	View Online

CompTIA Network+ Certification Prep (N10-008) builds on your existing user-level knowledge and experience with personal computer operating systems and networks, adding fundamental skills and concepts that you will need to advance in a networking career. As such, it focuses on the content described in the exam objectives for the CompTIA Network+ certification.

Earning CompTIA's Network+ certification increases your value in the marketplace by providing proof of your knowledge, skills, and ability to manage, maintain, troubleshoot, install, operate, and configure a basic network infrastructure in a vendor-neutral format.

Our CompTIA Network+ Certification Prep Course allows you to demonstrate the concepts covered on the Network+ exam using a sophisticated remote lab environment. You will work through several practice exams to reinforce your knowledge and gain essential networking skills in labs featuring networking devices such as routers, switches, access points, and others.

This course includes an exam voucher.

The CompTIA Network+ On-Demand course is now part of Polaris Accelerate.

Skills Gained

- Describe the features of different network protocols and products for LANs, WANs, and wireless networks
- Understand the functions and features of TCP/IP addressing and protocols
- Identify threats to network security and appropriate countermeasures and controls
- Install and configure network cabling and appliances
- Manage, monitor, and troubleshoot networks

Who Can Benefit

CompTIA Network+ Certification Prep (N10-008) is intended for entry-level computer support professionals with a basic knowledge of computer hardware, software, and operating systems who wish to increase their knowledge and understanding of networking concepts and acquire the required skills to prepare for a career in network support or administration. In particular, the following individuals will benefit from this course:

- IT personnel who need a solid foundation in networking
- Managers and supervisors who must oversee network-related activities
- Individuals interested in pursuing the CompTIA Network+ certification exam N10-008

Prerequisites

Regardless of whether you have passed A+, it is recommended that you have the following skills and knowledge before starting this course:

- Configure and support PC, laptop, mobile (smartphone / tablet), and print devices.
 - Know basic network terminology and functions (such as Ethernet, TCP/IP, switches, routers).
 - Configure and manage users, groups, and shared resources in a simple SOHO network.
 - Understand the use of basic access control measures, such as authentication, security policy, encryption, and firewalls.
 - Understand TCP/IP addressing, core protocols and troubleshooting tools.
-
