

Oracle Banking Platform

Code: BANK-LS
URL: [View Online](#)

This learning subscription is an all digital learning solution for anyone on your team seeking training on the Oracle Banking Platform (OBP). You get 24/7 access to a comprehensive set of high quality training videos delivered by Oracle experts throughout the subscription period. Application walkthroughs are included so you can practice what you learn. The training in this learning subscription is updated for new features and product enhancements. Develop a solid foundation about OBP, including an in-depth look at the business configuration, functional architecture, key modules, features, functionality, and business capabilities. More specifically, learn to set up and maintain Day Zero parameters. Understand the origination cycles (CASA, Term Deposits, Overdraft, and Loan) and processes. Gain insight into the purpose and implication of module-specific maintenances in daily transaction processing to help make your banking operations run smoother and with greater efficiency, while enhancing customer service. Learn how to set up the maintenances and perform transactions required to operate accounts, deposits, and loans. Also learn how to set up the various maintenances related to 'Payment', and how to perform associated transactions.

Skills Gained

- Get started with OBP, gain an understanding of its functional architecture and get a product overview
- Gain insight into the Day Zero setups, such as the Common Services, Alert, Document Management, Product Manufacturing Unit (PMU), Product Ledger, Party, Pricing, Multi Entity Multi Branding (MEMB), Limits and Collateral Management, Insurance Management, Loan Origination, and Tax configurations.
- Gain an understanding on the features and functionality supported in OBP through its Payments Module.
