

Microsoft - Nintex Forms and Mobile

Code:	55220
Length:	1 days
URL:	View Online

This one day instructor-led course will show you how to use Nintex Forms and Nintex Mobile to customise forms for use in SharePoint 2013 and Nintex Workflow 2013.

Nintex Forms 2013 makes it easy to create and complete engaging forms in the browser without the need for code. The course begins with an Introduction to Nintex Forms explaining where forms can be created and the terminology used to describe forms.

Next you will see how simple forms can be created quickly and easily followed by a series of progressively more dynamic forms working with data from lists, libraries and workflows to reveal the full potential of the product.

Skills Gained

- Create forms for use in SharePoint lists and libraries
- Create forms for use in Nintex Workflow
- Use the rich features of Nintex forms such as repeating sections and calculations
- Customise the branding of forms- including logos and colour scheme
- Publish forms to Nintex Live and Mobile so they can be completed by users and offline

Who Can Benefit

Anyone can attend this class but a prior knowledge of using SharePoint as a Site Owner would be advantageous.

Prerequisites

- Anyone can attend this class but a prior knowledge of using SharePoint as a Site Owner would be advantageous.
- If you wish to use Nintex Forms with Nintex Workflow and are not an experienced user of Nintex Workflow you will benefit from attending our 3 day Nintex Workflow 2013 course prior to the Nintex Forms course.

Course Details

Outline

Module 1: Introduction to Nintex forms

This module provides an introduction to Nintex Forms showing how it integrates with SharePoint and Nintex Workflow

and Nintex Live. We also review some of the key features which make Nintex Forms unique.

Lessons

- Introduction to Nintex forms 2013
- Feature overview
- Types of form
- Form controls

Lab 1: None.

- None.

After completing this module, students will be able to:

- Understand how Nintex Forms integrates with SharePoint and Nintex Workflow and Nintex Live.

Module 2: Getting started with Nintex forms

This module moves from the theory of form design to actually creating basic forms using a variety of controls such as drop down menus and check boxes.

Lessons

- Using the form design interface
- Building basic forms
- Grids, guides and snap
- Form size
- Undo, version history and preview
- Save, publish and delete
- Form redirect
- Demonstrations of Forms in:
 - Lists

- None.

After completing this module, students will be able to:

- Understand how to edit the component of an individual form to ensure that they conform to your companies style guide or branding.

Module 5: Mobile Forms

Your forms are now easy to use and looking great on a desktop computer but nowadays many people use mobile devices to read and capture data while traveling. This module will show you how to customise forms for use on specific mobile devices and how to publish forms so they can be completed from outside of your SharePoint environment either via the internet or offline. As always this will be done without the need for code or technical support, all of this is within reach of a typical end user.

Lessons

- Introduction to Nintex Live and Nintex Mobile
- Form Layouts for Mobile devices
- Mobile specific form controls
- Add photos
- Add video
- Add location
- Complete forms while offline

Lab 1: None.

- None.

After completing this module, students will be able to:

- Understand how to customize forms for use on specific mobile devices and how to publish forms so they can be completed from outside of your SharePoint environment either via the internet or offline.
