- Understand and utilize the Basic Search Center template and the features available.

### Who Can Benefit

This course is intended for Power Users, developers and IT professionals that will be involved with the design, development and maintenance of SharePoint 2013.

## Prerequisites

- None

## Course Details

### Outline

#### Module 1: Course Overview

This module explains how the class will be structured and introduces course materials and additional administrative information.

##### **Lessons**

- Introduction
- Course Materials
- Facilities
- Prerequisites
- What We'll Be Discussing

#### Lab 1: Course Overview

- None

After completing this module, students will be able to:

- Successfully log into their virtual machine.
- Have a full understanding of what the course intends to cover.

#### Module 2: Common Features of Templates

This module will give you an overview of the common features included with the templates available in SharePoint Server 2013.

##### **Lessons**

- SharePoint Server 2013 Site Templates
- Common Configurable Features

#### Lab 1: Common Features of Templates

- None

After completing this module, students will be able to:

- Know the site templates included with SharePoint Server 2013.
- Know the common features of templates.

#### Module 3: Project Site

This module will give you an overview of the features and options available within the Project Site template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Project Site

- Exploring and Utilizing the Project Site Template

After completing this module, students will be able to:

- Understand and utilize the Project Site template and the features available.

#### Module 4: Community Site

This module will give you an overview of the features and options available within the Community Site template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Community Site

- Exploring and Utilizing the Community Site Template

After completing this module, students will be able to:

- Understand and utilize the Community Site template and the features available.

#### Module 5: Document Center

This module will give you an overview of the features and options available within the Document Center template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Document Center

- Exploring and Utilizing the Document Center Template

After completing this module, students will be able to:

- Understand and utilize the Document Center template and the features available.

#### Module 6: eDiscovery Center

This module will give you an overview of the features and options available within the eDiscovery Center template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: eDiscovery Center

- Exploring and Utilizing the eDiscovery Center Template

After completing this module, students will be able to:

- Understand and utilize the eDiscovery Center template and the features available.

#### Module 7: Records Center

This module will give you an overview of the features and options available within the Records Center template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Records Center

- Exploring and Utilizing the Records Center Template

After completing this module, students will be able to:

- Understand and utilize the Records Center template and the features available.

#### Module 8: Business Intelligence Center

This module will give you an overview of the features and options available within the Business Intelligence Center template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Business Intelligence Center

- Exploring the Business Intelligence Center Template

After completing this module, students will be able to:

- Understand and utilize the Business Intelligence Center template and the features available.

#### Module 9: Enterprise Search Center

This module will give you an overview of the features and options available within the Enterprise Search Center.

##### **Lessons**

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Enterprise Search Center

After completing this module, students will be able to:

- Understand and utilize the Enterprise Search Center template and the features available.

#### Module 10: My Site Host

This module will give you an overview of the features and options available within the My Site Host.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: My Site Host

- Exploring and Utilizing the My Site Host Template

After completing this module, students will be able to:

- Understand and utilize the My Site Host template and the features available.

#### Module 11: Community Portal

This module will give you an overview of the features and options available within the Community Portal template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Community Portal

- Exploring and Utilizing the Community Portal Template

After completing this module, students will be able to:

- Understand and utilize the Community Portal template and the features available.

#### Module 12: Visio Process Repository

This module will give you an overview of the features and options available within the Visio Process Repository template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Visio Process Repository

- Exploring the Visio Process Repository Template

After completing this module, students will be able to:

- Understand and utilize the Visio Process Repository template and the features available.

#### Module 13: Enterprise Wiki

This module will give you an overview of the features and options available within the Enterprise Wiki template.

##### **Lessons**

- Features
- Utilizing

After completing this module, students will be able to:

- Understand and utilize the Enterprise Wiki template and the features available.

#### Module 14: Product Catalog

This module will give you an overview of the features and options available within the Product Catalog template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Product Catalog

- Exploring and Utilizing the Product Catalog Template

After completing this module, students will be able to:

- Understand and utilize the Product Catalog template and the features available.

#### Module 15: Publishing Site

This module will give you an overview of the features and options available within the Publishing Site template.

##### **Lessons**

- Features
- Utilizing

#### Lab 1: Publishing Site

- Exploring the Publishing Site Template

After completing this module, students will be able to:

- Understand and utilize the Publishing Site template and the features available.

## Module 16: Publishing Site with Workflow

This module will give you an overview of the features and options available within the Publishing Site with Workflow template.

### Lessons

- Features
- Utilizing

## Lab 1: Publishing Site with Workflow

- Exploring the Publishing Site with Workflow Template

After completing this module, students will be able to:

- Understand and utilize the Publishing Site with Workflow template and the features available.

## Module 17: Team Site

This module will give you an overview of the features and options available within the Team Site template.

### Lessons

- Features
- Utilizing

## Lab 1: Team Site

- Exploring the Team Site Template

After completing this module, students will be able to:

- Understand and utilize the Team Site template and the features available.

## Module 18: Blog Site

This module will give you an overview of the features and options available within the Blog site template.

### Lessons

- Features
- Utilizing

## Lab 1: Blog Site

- Exploring the Blog Site Template

After completing this module, students will be able to:

- Understand and utilize the Blog site template and the features available.

## Module 19: Developer Site

This module will give you an overview of the features and options available within the Developer Site template.

### Lessons

- Features
- Utilizing

## Lab 1: Developer Site

- Exploring the Developer Site Template

After completing this module, students will be able to:

- Understand and utilize the Developer Site template and the features available.

## Module 20: Basic Search Center

This module will give you an overview of the features and options available within the Basic Search Center template.

### Lessons

- Features
- Utilizing

### Lab 1: Basic Search Center

- Exploring the Basic Search Center Template

After completing this module, students will be able to:

- Understand and utilize the Basic Search Center template and the features available.
-
