

Microsoft - Web Development Fundamentals: Training for MTA Exam 98-363

Code:	40363
Length:	3 days
URL:	View Online

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-363, and build an understanding of these topics: Programming Web Applications, Working with Data and Services, Troubleshooting and Debugging Web Applications, Working with Client-Side Scripting, and Configuring and Deploying Web Applications.

Skills Gained

After completing this course, students will be able to:

- Program Web Applications
- Work with Data and Services
- Troubleshoot and Debug Web Applications
- Work with Client-Side Scripting
- Configure and Deploy Web Applications
-

Who Can Benefit

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Prerequisites

There are no prerequisites for this course.
