

CDP Data Governance with SDX: Implementing Regulatory Compliance on the Cloudera Data Platform

Code:	CDP-DG-SDX
Length:	2 days
URL:	View Online

This course helps customers use Cloudera Data Platform to address data governance tasks, motivated by the need for compliance with regulations such as the European Union's General Data Protection Regulation (GDPR) and the United State's Health Insurance Portability and Accountability Act (HIPAA).

Skills Gained

- Identify which tools in Cloudera Data Platform (CDP) to use for key data governance activities
- Organize data objects using classifications and business glossary terms
- Find access history for data objects and policies
- Use Data Catalog Profilers in CDP to assist in organizing data objects
- Use Data Catalog to foster collaboration with colleagues
- View and interpret a data object's lineage
- Create and apply resource- and tag-based access control policies
- Create policies for data masking and row-level filtering

Who Can Benefit

This course is best suited for data stewards and others who are responsible for, or have an interest in, implementing regulatory compliance or performing typical data governance activities using the Cloudera Data Platform.

Prerequisites

Familiarity with basic data governance concepts is helpful, but not required.

Course Details

Course Outline

- Data Governance Overview
- Organizing Data Objects
- Auditing
- Working with Data Catalog

- Lineage
 - Access Controls
 - Managing the Data Lifecycle
-
